

Saving space

An all-in-one oven, cooktop and dishwasher, the Candy Trio uses space intelligently

Where a kitchen is designed to suit the needs of a small family, or where space is limited, large appliances can take up a lot of room.

The solution comes from European appliance manufacturer Candy – the 3 in 1 Trio. This practical and innovative product combines a multifunction oven, a vitro ceramic cooktop and a dishwasher, all within a single 60cm-wide unit. The Candy 3 in 1 Trio is distributed and serviced Australia-wide by Dom Tech Appliances.

Candy has manufactured kitchen and laundry appliances since the company was first launched in Italy 60 years ago, and Dom Tech Appliances imports many Candy washing machines, washer/dryers and dishwashers into Australia.

Director of Dom Tech Appliances Ashley Reidy says the Trio concept has been available in Europe for decades.

Trio's cooktop is designed for any cooking style with independent inductors so all hotplates can be used together. The double-glass, mirror-fronted oven has a 40-litre capacity, and functions include convection cooking, grill and rotisserie. It has an electronic timer for convenience. The six-place-setting Trio dishwasher has electronic controls, five wash programmes and four temperature options.

"The Trio's three components – the oven, cooktop and dishwasher – are independent appliances, so should any maintenance be required on one, the others should still be useable," Reidy says.

Dom Tech Appliances provides full delivery, installation and demonstration services and all products come with warranties. The company also has a full service and spare parts division.

For more information, contact Dom Tech Appliances, 12a Redland Dr, Mitcham, Vic 3132, phone (03) 9872 6850, fax (03) 9872 6851. Email: info@domtech.com.au. Or visit the website: www.domtech.com.au.
